PLAINMARK SOLUTIONS PRESENTS

IGNITE

The Mentorship Program

A hands-on, live mentorship built for people who want to actually do the work of a digital growth agency — not just study it.

SIMPLIFYING TECH | AMPLIFYING IMPACT

Over **three months** and **20 live classes**, you'll work directly on the same tools, platforms and client situations our team handles every day — with support that continues even after each session ends.

THE PROGRAM, AT A GLANCE

What you're signing up for

₹7,500 TOTAL FEE	3 MONTHS	20 CLASSES
One-time program fee	Total duration	Live sessions
1–1.5 HOURS	**Oct 2026**	**Certificate ON COMPLETION**
Per class	Batch start date	Certificate awarded

SKILLS YOU'LL BUILD

Six areas we bring you up on

These are the same skills our team uses daily to run client projects — taught the way we actually use them, not in theory.

AI

AI Workflows

Building and connecting AI tools into real workflows that save hours on client and agency work.

WS

Working Style

The habits, discipline and communication that separate a freelancer from someone clients keep coming back to.

HS

Hostinger Services

Deploying and managing live WordPress sites end to end — hosting, domains, and day-to-day site upkeep.

SE

SEO

Getting a site found — on-page fundamentals, keyword thinking, and the technical checks that actually move rankings.

OU

Outreaching

Finding the right leads and opening conversations that turn cold contacts into real project inquiries.

DC

Dealing With Clients

Handling client conversations, expectations, scope and feedback — calmly, and without losing the project.

End-to-end live support, for every mentee

Every class is live, and every mentee is followed up with individually — not just during the session, but through the doubts, blockers and real project work that come up in between.

- Starts 1st week of October, 2026
- Live, 1-on-1 attention
- Certificate on completion
- ₹7,500 for the full 3 months

AFTER YOU ENROLL

What happens once you pay

Private WhatsApp Group

You're added to the batch's WhatsApp group immediately after payment, where classes are scheduled, doubts are cleared, and updates are shared.

Starter Code Structure

You're handed the base code structure and project templates we use on live client work, so you start building from day one instead of from a blank file.

OUR ASSURANCE

No refunds. A different guarantee instead.

We don't run a refund policy. What we offer instead is this — we only put our name behind mentees who've genuinely learned. If you don't walk away with real, working skills by the end of the program, you won't get a certificate or a recommendation from us. Our credibility is the guarantee, not your money back.

SEATS ARE LIMITED

Reserve your seat in the October Ignite batch

Call or visit our website to ask questions, check availability, or confirm your spot before the batch fills up.
